EDUCATION

Duke University, Pratt School of Engineering **Durham, NC**
Master of Engineering (MEng), Electrical and Computer Engineering
Machine Learning/Big Data Specialization
GPA: 3.73/4.00

Duke University, Trinity College **Durham, NC**
Bachelor of Science (BS), Computer Science
GPA: 3.77/4.00

EXPERIENCE

N1 Health **Boston, MA**
Software Engineer July 2026 – Present

- Developed a new identity resolution tool with Splink & DuckDB to probabilistically union member IDs
- Automated vendor data ingestion via Apache Airflow, eliminating the need to manually check for files
- Implemented data drift dashboards to track changes to feature store data distribution
- Leading the release process for reviewing and pushing new features to our codebase
- Leading the SDK development team

Data Ops Engineer July 2025 – July 2026

- Led the development of a containerized model execution pipeline with Apache Airflow & AWS ECS
- Implemented a pipeline for improved member risk scoring and revenue optimization for health plans
- Architected and developed a feature store with dbt that coalesces our 4 major data pipelines
- Wrote documentation and data validation tests for nearly 600 member-level features
- Added data transformations to all data pipelines to ensure standard data formatting

Associate Data Ops Engineer July 2024 – July 2025

- Created and maintained data pipelines for clients with populations ranging from 200K-800K members
- Collaborated with consultants to build client-facing data dashboards that track campaign performance
- Developed a file ingestion tool that automatically adds new client files to our data lake with AWS S3
- Transitioned our vendor data pipeline to be API-based, reducing wait times by 95%
- Streamlined the enhancement of member contact information for campaign outreach
- Built a dependency-aware, change-detection data standardization system
- Integrated plotting for ML model development

SKILLS

Coding Languages: Python, Java, C, R, Bash, HTML, CSS, Swift, JavaScript
Database Systems: SQLite, Presto SQL, PostgreSQL, DuckDB
Libraries & Frameworks: dbt, Apache Airflow, Docker, AWS, Splink
